## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments filed 5/05/2006, regarding claims 1-5, 7, 9-13, 15, 17-21, and 23 have been fully considered but they are not persuasive.

In response to applicant's arguments regarding claims 1, 9, and 17, over the recitation of "wherein said text is an input field" and Claims 7, 15, and 23, over the recitation of "wherein said text is an output field." Despite Applicant's arguments on page 7, of applicant's remarks, the Examiner is unable to find any teaching in applicant's cited sections or in the disclosure wherein, for example, for "text in the control", the "text is an input field.", claims 1, 7, and 9, and in claims 7, 15, and 23, for "text in the control", "wherein said text is an output field." The TextField discussion is insufficient to teach this limitation.

2. The objection to the specification has been withdrawn as claim 25 has been cancelled, wherein the objection was misdirected towards claim 1 in a typographical error as "control object" was clearly in claim 25, and not claim 1.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-5, 7, 9-13, 15, 17-21, and 23 are rejected under 35 U.S.C.

112, first paragraph, as failing to comply with the enablement requirement.

The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

In claims 1, 9, and 17, "wherein said text is an input field" is not enabled, nor described anywhere in the disclosure in a way that enables an artisan to make or use this limitation.

In claims 7, 15, and 23, "wherein said text is an output field" is not enabled, nor described anywhere in the disclosure in a way that enables an artisan to make or use this limitation.

The Applicant is advised to point out the enablement of these limitations within the disclosure.

5. Claims 2-5, 10-13, and 18-21 are rejected as they depend from their rejected parent claims.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
